Dear Rick,

As we discussed, enclosed are several laser copies of images from "Star Trek: First Contact." These images are from the scenes shot on location in Arizona and are lit with your product the Phoenix Light Tower. Once you've had the opportunity to look them over, give me a call and we'll move ahead.

Thanks again for your patience.

Regards,

Melissa Duke

If you can't see it Light It UP! with **Phoenix Light Towers**...

Fox Television, Paramount Pictures and other production companies use the **Phoenix Light Towers**

Where Millions of Dollars are on the line, **Phoenix Light Towers** are dependable take after take.....

Check out the new Paramount Pictures Release "**Star Trek - First Contact**". **Phoenix Light Towers** are used in an out door encampment scene where the launch of the "**Phoenix**" warp missile is about to occur.

"These images are from the scenes shot on location in Arizona and are lit with your product the **Phoenix Light Tower.**" ~ Paramount Pictures

The **Phoenix Light Towers** light up the entire scene and provide the atmosphere for the dramatic climax of First Contact.
